# About Us

At GLOBAL ADDS, we believe that every second of your attention has value. That's why we have built a platform where users can earn rewards by watching ads. Our goal is to create a bridge between advertisers who want genuine engagement and users who deserve to be rewarded for their time.

Through our Ads View Plan, every user gets paid for simply viewing advertisements on their mobile or desktop. This not only creates an additional income stream but also reshapes the digital advertising ecosystem into something more fair, transparent, and rewarding.

# GLOBAL ADDS

## MULTI-CURRENCY SUPPORT

Unlike traditional platforms, GLOBAL ADDS provides payouts in both Crypto and INR, giving flexibility and freedom to our global community of users.
